

## CLASSIC LINE (CL) DOUBLE SWING GATE

A standard classic infill . The gate frame is manufactured with an additional top rail. Infill is tubular with decorative rings between the palings and double top rail.

### LEAFS

The leaf comprises a frame with palings between the top and bottom rails. To suit the size of the gate with infill diameter to match fence height. Openings including and above 4.50 meter and with a height of 1.50 meter and above have an additional rail.

### PALINGS

The infill palings have a diameter of 26 mm.

### POSTS

Post section depends upon the gate size. Specifications are listed on the next page. The posts are supplied extended to set in the ground or with ground level base plate.

### RINGS

The rings have a diameter of 125 mm and are 6 mm thick.

### LOCK

All gates as standard use a Locinox lock with stainless steel workings and aluminium casing. A strong and robust day/night lock. Includes a 17 mm Euro-profile cylinder with 3 keys.

### GROUND BOLT

As standard a drop-bolt is delivered to hold the gate in an open position. Optional a ground block can also be delivered.

### TURN DIRECTION

The leaf can be assembled to open left or right. Note: this will alter the turning circle. The adjustable hinges are assembled to allow swing opening of 180° .

### CONNECTING FENCING

The posts are delivered with welded rod fence connection. Option - Welded strip of weld mesh as an infill.

### FOUNDATION

Extended posts are to set in concrete footing, base-plated posts are holed for ground level fix to existing or new foundation.

### SURFACE TREATMENT

Hot dip galvanised according NEN-EN-ISO 1461.

### POWDER COATING

For an appealing and finishing touch an extra coated finish is available. Applied according to NEN 5254.
